BIRD CONTROL

MASTERSPIKES™

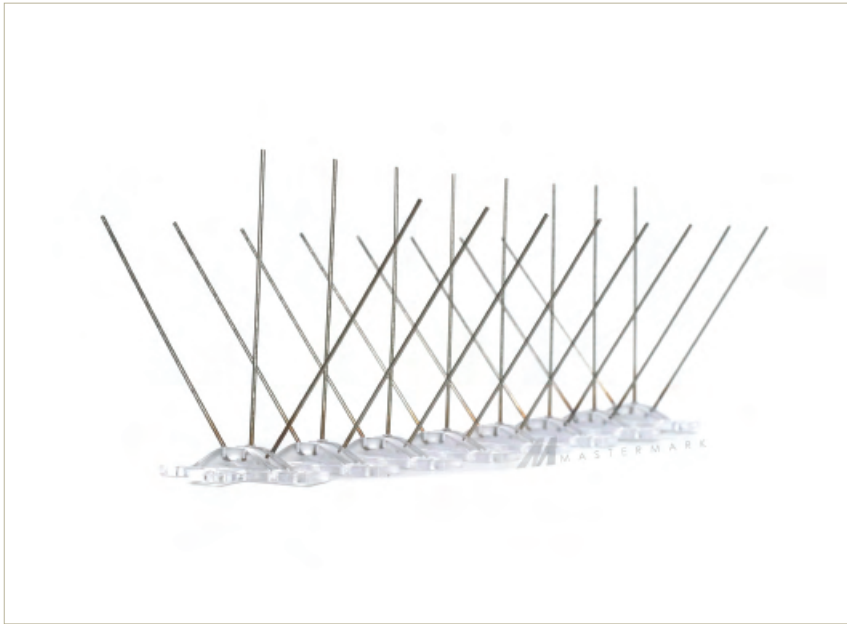

The **bird-brained solution**
to your bird problems.

MASTERSPIKES™

Masterspikes are the most effective and durable bird spikes on the market. They are made with high-quality materials and are proven to last in all weather conditions. Masterspikes use enhanced pin angles to keep birds away without being unsightly. They are also customizable to fit any area, so you can keep your home or business bird-free no matter what the size or shape. Masterspikes are not just bird-be-gone, they're bird-gone-forever.

MD3 / 3-Pin

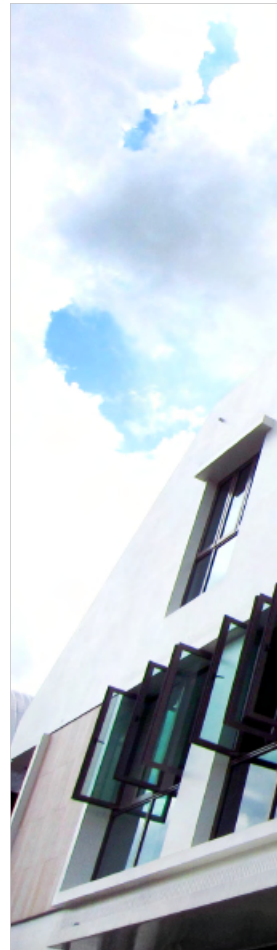

LD2 / 2-Pin

HD4 / 4-Pin

FEATURES

- UV-stabilised polystyrene base for extended durability
- Stainless steel 1.5mm pins – less prone to bending
- Screw or glue mountable
- Wide base for better glue contact
- Flattened pins for durable pin grip
- Available in 1 foot long strips
- Easy snap off sections for adjusting lengths
- Square pins that are gentle on birds

BIRD NETTING

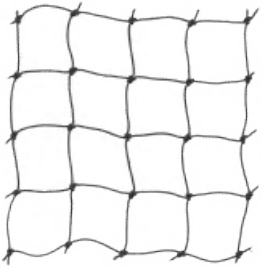

Keep birds out,
peace of mind in.

BIRDNETTING

Mastermark Bird Netting - the superior choice for effective bird control. Our nets act as a physical barrier, preventing birds from accessing your building while remaining visually inconspicuous. With a finished ready-squared design, installation is a breeze on buildings, open doorways, and under-roof sections. Bird proof your building while maintaining the aesthetics with Mastermark Bird Netting - the premium solution for bird control.

NETTING TYPES

N0075

Grid Size 19mm (3/4")
Target Birds House Sparrows,
Asian Glossy
Starlings

N0125

Grid Size 28mm (1 1/8")
Target Birds Asian Glossy
Starlings,
Mynahs, Pigeons

N2000

Grid Size 50mm (2")
Target Birds Crows, Herons,
Egrets

FEATURES

- Made of multi-twine, knotted 6-ply High Density Polyethylene (HDPE) designed for maximum durability
- Fire retardant to reduce flammability
- UV-stabilised and rot resistant material perfectly suited for tropical climate without fading or deteriorating
- Each net is 50ft x 50ft

SPECIFICATIONS

Material High Density Polyethylene (HDPE)
Multi-twine knotted 6-ply

Melting Point ~135°C

Break Strength 20kg per twisted strand

Size 1 roll – 50ft by 50ft

Colours Black

TENSION FIXTURES

Aluminium Ferrule
 MBN-F-004 / 50pcs
 for use with wire ropes

Stainless Steel 304 Turn Buckle
 MBN-F-003 / 1pc
 to hold tension of wire ropes

Stainless Steel 304 Wire Rope
 MBN-F-002 / 100ft roll
 serves as a perimeter frame that keeps the net taut

INTERMEDIATE FIXTURES

Closed Screw Eye
 MBN-F-006 / 50pcs
 to anchor net to wall

Opened Screw Eye
 MBN-F-007 / 50pcs
 to anchor net to wall

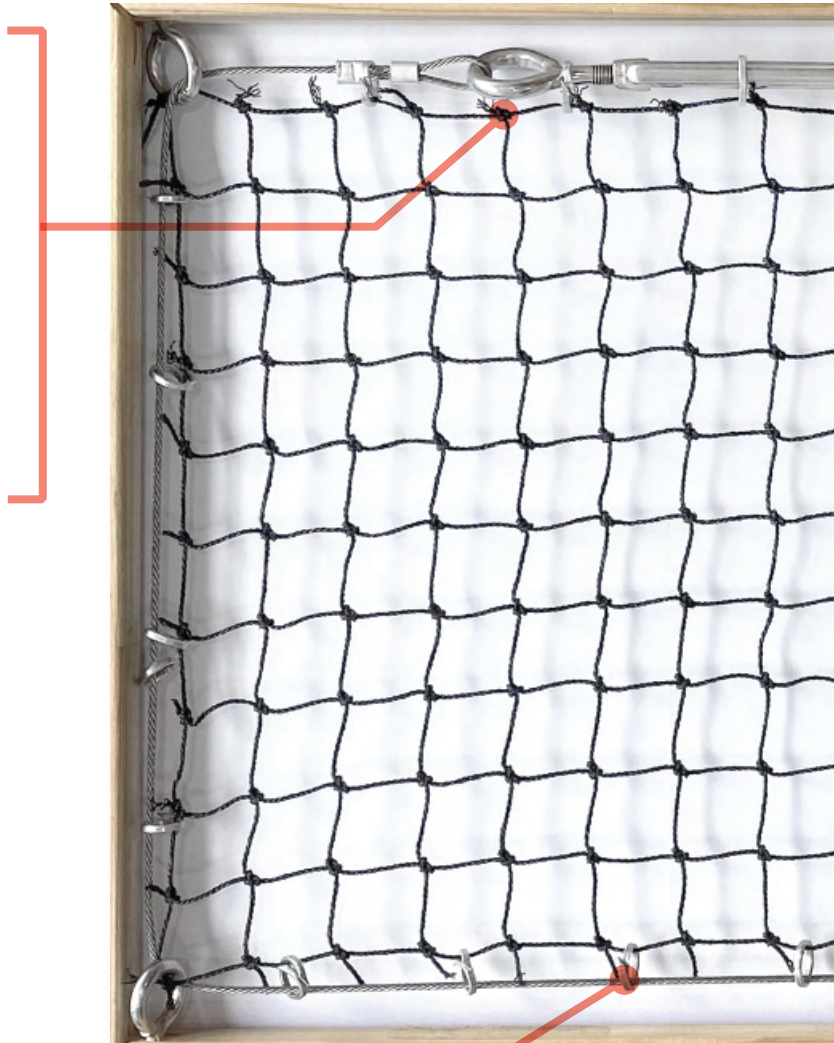

Wall Plug
 MBN-F-008 / 100pcs
 to secure screw into wall

CORNER FIXTURES

M5 Net Bolt
 MBN-F-009 / 50pcs
 supports weight of net and wire at corners or turns

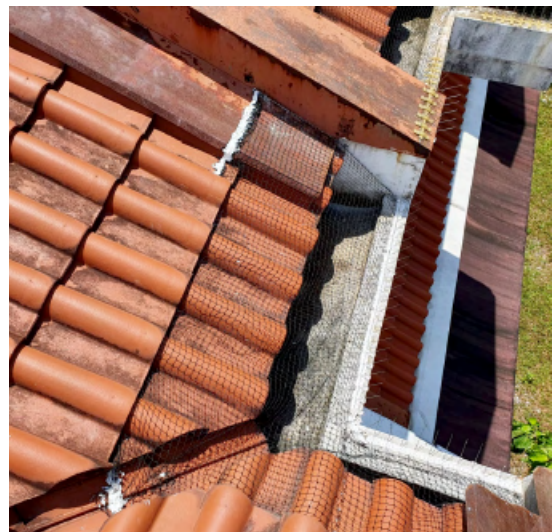

TOOLS

Hog Ring Stapler
 MBN-T-001 / 1 unit
 secures wire rope to netting

Hog Ring Staple Bullets
 MBN-T-002 / 2000pcs
 used with hog ring stapler

ACCESS FIXTURES

Zipper
MBN-A-001/002

/ 1m or 2m lengths
allows access through
installed netting

BIRDIGO®

keeping birds off the table

**The perfect bird
deterrent for eating
outdoors.**

Our humane device acts as a mediator between you and nature, deterring birds such as mynahs, sparrows, small pigeons, and more. With its blunt design, it keeps everyone safe and harm-free. Trust Birdigo to help you co-exist peacefully with the wildlife around you.

Birdigo acts as mediator, allowing us to co-exist with nature humanely. It simply deters without harming them.

Designed with simplicity in mind, Birdigo was made sleek and easy for all to use. Just push and go.

Birdigo's shoo-ing arm swings gently and is made blunt, making all who come near safe from harm.

Your personal food protector, shielding your unattended food while you step away.

Your outdoor dining companion, keeping birds off the table, rain or shine.

This brilliantly effective tool is one of its kind. The only table top bird deterrence that works.

SHOCKTRACK SYSTEMS

Shock track systems provide a highly effective and humane bird control solution by delivering a gentle electric shock that discourages birds from landing or roosting. Durable and inconspicuous tracks can be used on a range of surfaces, making them an effective measure against medium to severe bird infestations in areas with low human activity.

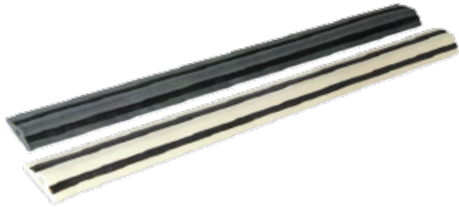

Customisable
Easy to install
Flexible & discreet

Target Birds

Pigeons, Starlings, Mynahs,
House Sparrows, Crows

Recommended Areas

Rooftops, Ledges, Parapets,
Beams

Avipoint Shock Track

STS-001 / 1 unit

L 20m x W 8mm roll
White or Black Colour

Connectors

To join two lengths of tracks and can be used to connect lead wire to track via Female Spade Connectors

Straight Connector

STS-C01 / 20pcs

Corner Connector

STS-C02 / 20pcs

Jumpers

STS-C03 / 20pcs

To crimp ends of lead wires or allow connections of lead wires

Small Energiser

STS-002 / 1 unit

L 190mm x W 85mm x H 50mm
Power input voltage 240V AC
max output 7.5KV DC
Covers up to 300m

Large Energiser

STS-003 / 1 unit

L 190mm x W 85mm x H 50mm
Power input voltage 240V AC
max output 7.5KV DC
Covers up to 600m

Lead Wire

STS-004/005 / 20m roll

Black or White Colour

The energisers are powered by plugging them into a power socket. For added safety, all energisers are supplied with a detachable lead that can be removed when the system is being worked on. Energisers must be installed in an upright position to prevent water ingress.

Female Spade Connectors

STS-C04 / 100pcs

Connection to track via straight/corner connectors/jumpers; or between lead wires with Male Spade Connectors

Male Spade Connectors

STS-C05 / 100pcs

Connection between lead wires with Female Spade Connectors

Connector Ring Terminals

STS-C06 / 100pcs

Connection of Lead Wire to Energiser

SPRINGLOADED WIRE SYSTEMS

Spring-loaded wires provide effective bird proofing solutions by preventing birds from landing and roosting on surfaces. Our durable and easy-to-install wires offer a humane and long-lasting solution for protecting buildings and structures from bird damage and mess.

Extremely humane
Low profile
Fully customisable

Target birds

Sparrows, mynahs

Recommended areas

Solid flat surfaces such as windowsills, ledges more than 2" wide, sprinkler pipes, glass panels

2mm Stainless Steel 304 Wire
SLW-001 / 100m

50mm Stainless Steel 304 Spring
SLW-003 / 10pcs

Aluminium L-bracket
SLW-002 / pc

Wire Cutter
SLW-004 / unit

The 2mm thin wire is held together by a stainless steel 304 spring, keeping it taut yet unstable for birds to perch. Whilst we understand that a spring wire system is less obtrusive and that some people find it more aesthetically pleasing than bird spikes, it does not provide as good a level of deterrence as a bird spike system.

BIRD REPELLENT GEL

Target birds

Pigeons, Mynahs, Starlings, House Sparrows, Crows

Recommended areas

Ledges, Beams, Pipes, Signs, Rafters, Windowsills

Bird Free Optical Deterrent Gel deters most types of unwanted birds from buildings and adjacent structures when applied. The gel creates an illusion of fire as birds have the ability to see ultraviolet light, which is why they change their behaviour and fly away when they see the gel, leaving structures and buildings bird free.

Compared to other gel type repellent products in the market which are almost all tactile gel type which means it is a single sensory type. To Nature Bird Free gel on the other hand is a multi-sensory type gel (visual, olfactory, taste, and touch sense) which works simultaneously to stimulate the birds to fly away.

'To Nature Bird Free' Bird Repellent Gel

200g Tube

BRG-200 / tube

Yellow Colour
covers approximately 8m

250g Tube

BRG-250 / tube

Yellow Colour
covers approximately 10m

PIGEON POPULATION CONTROL

Ovistop™

Ovistop is a veterinary medicine prepared using natural maize kernels to which is added a very low concentration (0.08%) of Nicarbazine, an active ingredient for birth control of birds. A consumption by the pigeon of 8–10g a day for at least 5 days a week totally inhibits eggs hatchability in treated pigeons.

- **Simple, Effective And Safe**
- **Cost Friendly Method – Reduced Management Costs**
- **Improvement In Town Living Quality**
- **No Risk To Humans Or Other Birds**
- **No Harm To Pigeon Health Or Environment**
- **No side effects plus birth reductions of up to 80% in 4 years**

Pair these with an Autofeeder!

Alphachloralose Coated Mung Beans

Alphachloralose presents a compassionate and efficient approach to addressing the issue of nuisance birds. This unique product combines a carefully calibrated blend of alpha chloralose and mung beans, designed to serve as a humane bird anesthetic. Its purpose is to temporarily immobilize avian pests, ensuring their well-being is safeguarded, while avoiding any harm or fatality.

It is crucial for potential users of Alphachloralose in any country to exercise responsibility in its usage. This includes ensuring compliance with pertinent local regulations and adhering to the highest ethical standards for the well-being of wildlife and the environment.

Super Concentrate Disinfectant

F10SC

A high performance surface acting biocidal compound effective against bacteria, viruses, fungi and spores. Non-toxic, non-corrosive and non-irritant F10SC is versatile and safe to use in a variety of ways including surface disinfecting and fogging. It does not leave stains upon contact, and is alcohol and aldehyde free, and biodegradable.

100ml / 200ml / 1L / 5L

Odour Eliminator with Extra Pine Fragrance

F10OE

Bad odours usually arise from the presence of bacteria and bird droppings. F10 odour eliminator with pine fragrance works to remove any malodour present while the F10 proprietary disinfectant sanitises surfaces. At the same time, the disinfectant sanitises both the air and surfaces, leaving it not just fresh but hygienic and safe. This product works synergistically to get rid of bad odours at the source.

500ml / 5L

Biofilm Remover and Heavy Duty Degreaser

F919SC

F919 biofilm remover and heavy duty degreaser is an alkaline blend of surfactants plus sequestrants and detergents buffered for optimal activity. It has an emulsifying action for removing heavy soiling, bird poop and biofilm from hard surfaces and equipment without the need of hand scrubbing. The clean surface can then be effectively disinfected with F10SC.

TOMAHAWK LIVE TRAPS

Tomahawk Live Trap provides contractors and homeowners with quality equipment at affordable prices. Their products are made in the USA using superior materials that ensure long life—and peace of mind. Their traps come in a variety of sizes and configurations to suit your needs. Whether you're trapping small animals like skunks, raccoons, squirrels or rats, or large animals like foxes, coyotes or bobcats, Tomahawk offers a wide variety of humane traps for trapping wildlife.

Many Sizes And Styles For Any Situation
 Tighter Mesh For Strength And Durability
 Add Mounting Loops
 Add A Sheet Metal
 Add Powder Coating bait Area Cover

Additional options available for Stainless Steel Traps:
 – Black powder coating
 – Trap handle cushion
 – Plastic trap cover for the trap

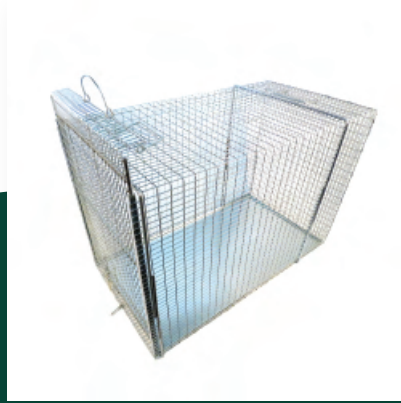

PROFESSIONAL SERIES TRAP WITH REAR DOOR

Model 606SS is a live trap with a rear access door, ideal for trapping cats, rabbits, and similar-sized animals. It boasts a sturdy wire frame with tighter mesh patterns, reinforced with welded steel rods for durability. The easy-release door enables effortless baiting and animal release.

Weight 7kg

Dimensions 66L x 23W x 9H cm

Material 0.5"x 2"-14 gauge

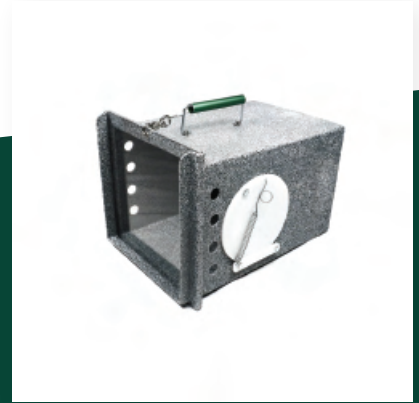

PROFESSIONAL SERIES TRANSFER CAGE

Model 308SS Transfer Cage features tight mesh to prevent animal bites and scratches. The guillotine door matches with Tomahawk's 16" wide traps/cages and keeps animals from reaching outside.

Weight 7.71kg

Dimensions 76L X 41W X 51H cm

Material 1"x1"-14 gauge galvanized mesh

CATS DEN

Model 721 feral cat den that serves as a transport carrier or a hiding spot within holding cages. The side port door allows cats to enter on their own, enabling easy trapping without direct handling.

Weight 3.18kg

Dimensions 43L x 30W x 30H cm

Material Solid Polyethylene

Colours ● ● ●

ORIGINAL SERIES COLLAPSIBLE TRAP

Model 205 is a collapsible live trap for cats, rabbits and similar size animals. Collapsible for easy storage or transportation and are easy to set up with no tools required.

Weight 2.72kg

Dimensions 66L x 23W x 23H cm.

Material 1"x1"-14 gauge galvanized mesh

ORIGINAL SERIES SINGLE TRAP DOOR

Model 109.5 is a live trap designed for bobcats, fox, small dogs and similar size animals.

Weight 10kg

Dimensions 100L x 38W x 51H cm.

Material 1"x2"-12 gauge galvanized mesh

DROP TRAP

Model DT1 collapsible feral cat trap sets up in seconds without tools. Pull the string to catch trap-shy cats. Built-in prop, sliding door, and weight flap included for easy release and stability. (String not included)

Weight 8.16kg

Dimensions 91L x 91W x 35H cm

Material 1"x 2"-12 gauge

PIG BRIG – WILD BOAR TRAPS

The Pig Brig® Trap Systems offers an all-in-one patented solution for feral hog trapping. These are the wild boar traps you've been waiting for, with easy, fast, one-person assembly, lightweight transport, and no need for cell service or subscriptions. A humane way to trap pigs that prevents them from hurting themselves unlike a rigid metal trap. You can catch all night long and still get a good night's sleep with the Pig Brig trap.

Easy to Transport

Lightweight, fits in a tote and easily goes everywhere the pigs go.

Catches the Whole Sounder

Not a one-shot gate trigger, but a true multi-catch system allowing wild hogs to continuously enter.

One Person Set Up

Single person set up in less than an hour without any extra help from friends or family.

Stronger Than Steel

Double-walled, UV-protected, 8,000-ft-lb drop strength netting stands up to even the biggest boars.

Trap Anywhere

No gate means there are no moving parts and no cell service is needed.

Smarter Than Smart Traps

With no slamming gate or metal walls, our stealthy trap won't cause panic or create trap-shy pigs.

How Pig Brig Traps Catch Pigs.

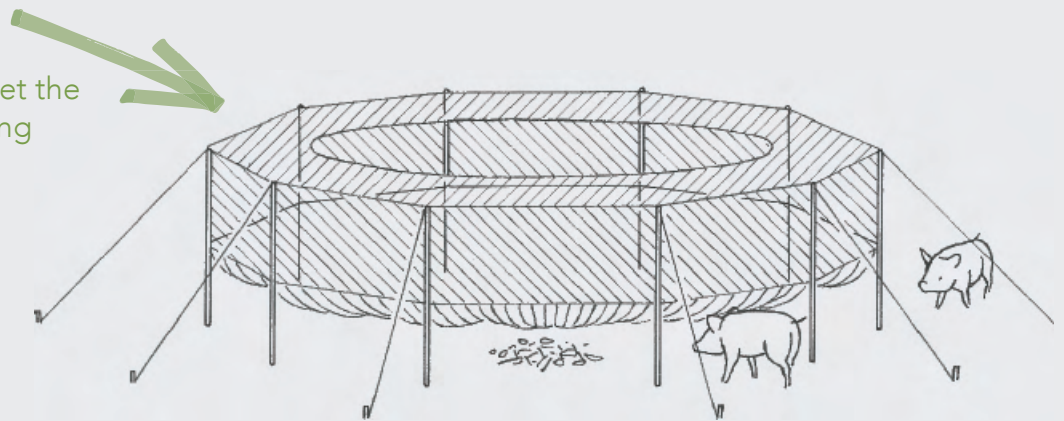

Set Up the Trap

Using T-posts or trees, build the trap where you see signs of pig activity.

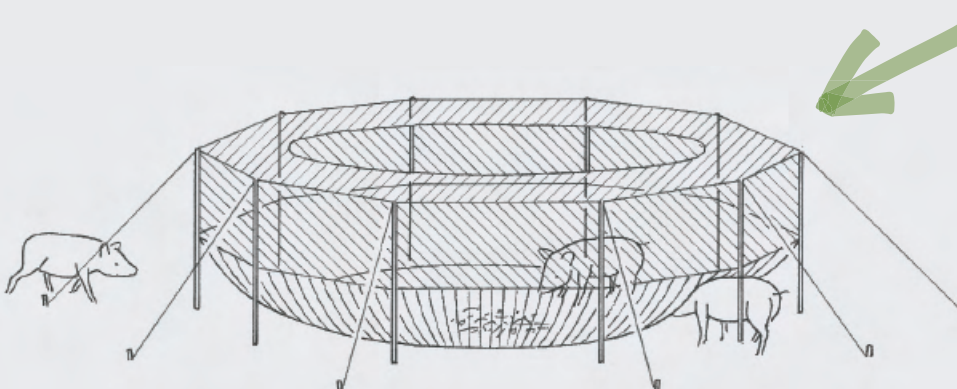

Bait Your Site

Put your bait out and get the pigs comfortable feeding under the raised net.

Set Your Trap

Lower the net to the ground. The pigs will root inside but not able to root back out.

ABOUT MASTERMARK

Mastermark is Singapore's leading wildlife consultant with a strong legacy in innovative and science-based expertise to keep a healthy and sustainable balance between our wildlife and urban environments. Ultimately, trying to keep both wildlife and urban environments separate will not lead to sustainable gain – the future belongs to those who can successfully synchronise the two in seamless harmony.

Our extensive experience over the past decades spans across various industries, providing effective measures in turning urban and wildlife conflicts into concord. Our knowledge led us to handpick the best wildlife and bird management equipment for their quality and durability – and if none existed to suit our needs, we developed it ourselves, so you can be confident that you're getting the best products possible.
